

8. Can I still use the directory tab on the mobile website?

- x** Yes, the mobile website has made the directory tab even more convenient. You now have your co-workers contact info at your finger tips and with the mobile friendly directory format you can quickly send emails to your co-workers.

9. How can I update my enter requests/preferences tab if my availability changes?

- x** By clicking on the enter requests or preferences tab you can quickly update your availability when the information becomes available. Keep in mind that if your facility has a defined cutoff date for these types of requests the restrictions will still apply to the mobile site.
